Welcome to ArctiChildren site!

This website serves Lappish young people, parents and professionals focal point for discussion of changing health themes. Health Themes are built for young people and their parents wishes and needs. Discussion takes place anonymously in the delay **discussion forum** and real-time chat service. The site also serves as the Rovaniemi University of Applied Sciences welfare of students as a learning environment in which students, among other things, provoke discussions and similar questions posted on the site. The quality of the answers and expertise to ensure that teachers check the students' answers formulated before they are published on the site. Rovaniemi University of Applied Sciences has developed a site from the European Social Fund ArctiChildren InNet project within the framework of cooperation with the Kemi-Tornio University of Applied Sciences, University of Lapland, and its pilot municipalities (Inari, Kemi, Ranua, Rovaniemi and Salla) with.

Ivalo parents' evening the questions and answers

Published on 21.01.2013 | 12:58

Rovaniemi University of Applied Sciences student nurses find the parents evening Ivalo secondary school 11 October. The evening's theme was "schoolboy good control over daily life." Student nurses kept on a presentation after which they guided the discussion in small groups. Parents could write their questions on paper and the students have answered the questions teachers. Have a look at the discussion forum for questions and answers. Sincerely, ArctiChildren project team members
