

“*Knowledge Network*” is planned to function as information tool for students who are interested in an internship or studies abroad and seek for first information. Therefore the platform serves as information gathering tool, providing many visual information and links for further and deeper information. Besides the “*Knowledge Network*” functions as communication tool, as some contents are planned to be student generated in line with a Q&A forum.

Depending if students are interested in an internship or studies abroad and if they are outgoing (in our case, students from Kempten UAS leaving for one semester) or incoming (international students joining Kempten UAS for one semester), the different sites provide separate information for the students.

Every subcategory then holds visual information (e.g. videos, info graphics) and downloads (e.g. pdfs) and a link collection regarding topics as shown in the table below. The content for the Q&A forum is student generated. This means that former experience international interns/students are asked to fill in templates/layouts e.g. create an info graphic about the university they studied at/the company they worked at. This can be implemented in the course and be part of the final assignment of the practical phase. Other contents like the timeframes for organization will be worked out by the Team IO 2. We concentrate on using visual elements like infographics, interactive checklists, videos and pictures to foster consistency, ease of use and understanding.

KNOWLEDGE NETWORK		
	Landing page	Welcome to the Knowledge Network. This portal was developed in line with the Erasmus+ project Learning Tourism (LeTo) and serves as information and communication tool for students, who wish to complete an internship or a semester abroad as well as companies and universities, that are searching for qualified and motivated students.
STUDENTS		
	Explanation structure	<p>This tool was worked out by the University of Applied sciences in Kempten, Allgäu, Germany and provides information for both kinds of international students:</p> <ul style="list-style-type: none"> - Incomings: International students from outside Germany, who want to study/work in Germany - Outgoings: Students from Kempten UAS, who wish to study/work outside Germany <p>The portal provides information in the following categories:</p> <ul style="list-style-type: none"> - General information - Internships - Studying <p>As well as a Q&A Forum to communicate with experienced students.</p>

<ul style="list-style-type: none"> Organization 	Step by step timeframe Infographic	You must send your school-leaving certificate (e.g. leaving certificate, A-levels, High-School Diploma, Baccalaureat etc.) and university certificate (if you have studied at a university before) to uni-assist , where it will be checked for compatibility with a German university entrance qualification. In addition, the grade point average will be calculated, which is necessary for receiving a study place in degree courses with limited student number. If you are not eligible for direct university entrance you must complete a preparation course of one year at Studienkolleg Coburg in order to obtain the University entrance qualification. Additionally, applicants from the People's Republic of China, Mongolia and Vietnam require the certificate of the APS-office in Beijing, which must be presented to uni-assist together with the certificates. The APS-office is an institution of the German Embassy in Beijing
